Notes to the Condensed Interim Consolidated Financial Statements – Unaudited

June 30, 2015

(expressed in thousands of US dollars, unless stated otherwise)

1 NATURE OF OPERATIONS AND GOING CONCERN

Baja Mining Corp. (the “Company” or “Baja”) was incorporated on July 15, 1985, under the Company Act of British Columbia. The Company’s primary asset is its minority investment in the El Boleo copper-cobalt-zinc-manganese deposit (the “Boleo Project” or the “Project”) located near Santa Rosalia, Baja California Sur, Mexico. Minera y Metalúrgica del Boleo, S.A.P.I. de C.V. (“MMB”) holds the mineral property rights to the Boleo Project. In addition, the Company intends to investigate and potentially pursue alternative project opportunities including Cinto Colorado (note 7). The Company is domiciled in Canada, and its registered office is 1430 – 800 West Pender Street, Vancouver, British Columbia, V6C 2V6.

The Company is a reporting issuer in Canada and trades on the TSX Venture Exchange, the Frankfurt Stock Exchange and the OTC market.

These condensed interim consolidated financial statements have been prepared on the basis of a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of operations. The Company’s ability to continue as a going concern is dependent on its ability to generate future profitable operations and/or obtain the necessary financing to meet its obligations and repay its liabilities from normal operations when they become due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least but not limited to twelve months from the end of the reporting period.

To date, the Company has not earned significant revenues. As at June 30, 2015, the Company had working capital of \$1,156, and an accumulated deficit of \$434,621. The Company incurred negative cash flows from operations of \$603, and net income of \$798 for the six-month period then ended. The Company expects to incur further losses in the development of its business. The Company will require additional financing in order to meet its ongoing corporate overhead, and to continue its exploration and evaluation programs. Management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or will be able to raise additional future funding if required. These factors cast doubt on the Company’s ability to continue as a going concern.

These condensed interim consolidated financial statements do not include the adjustments to the amounts and classification of assets and liabilities that would be necessary should the Company be unable to continue as a going concern. These adjustments may be material.

2 BASIS OF PREPARATION AND NEW ACCOUNTING POLICIES

Basis of preparation

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”) 34 *Interim Financial Reporting*.

Baja Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements – Unaudited June 30, 2015

(expressed in thousands of US dollars, unless stated otherwise)

2 BASIS OF PREPARATION AND NEW ACCOUNTING POLICIES (continued)

These condensed interim consolidated financial statements follow the same accounting policies and methods of application as the Company's most recent annual consolidated financial statements, and should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2014, which were prepared in accordance with IFRS as issued by the IASB.

3 INVESTMENT IN MMB

	Shareholder loans receivable
Balance – January 1, 2015	17,905
Accretion of interest during the period	-
Balance – June 30, 2015	<u>17,905</u>

The Company's investment in MMB is a combination of shares in common stock and shareholder loans. The shareholders of MMB are required to fund their proportionate equity percentage in the Boleo Project by advances through shareholder loans or subscriptions to additional shares.

At June 30, 2015, the Company has a 10% (December 31, 2014 – 10%) equity interest in MMB, with 100% of the carrying value of \$17,905 (December 31, 2014 – \$17,905) attributed to a promissory note with a face value of \$28,224, that accrues ordinary interest at 4% per annum. Upon initial recognition of the promissory note in April 2014, the Company calculated an effective interest of 14.3% using the contractual cash flows associated with a \$28,224 principal balance over the remaining term of the loan, which matures on December 31, 2018. The promissory note is subordinate to other priority debt held by MMB. In the event that on the maturity date the priority debt in MMB is still outstanding, the maturity date of the new promissory note will be automatically extended for successive one-year terms as required.

However, management considered the going concern uncertainties for MMB, and concluded not to recognize any investment income for the shareholder loans receivable for the three and six month period ended June 30, 2015 (\$Nil – for the three and six month period ended June 30, 2014.)

4 SUBORDINATED DEBT

Refundable deposit liability

A refundable deposit liability of \$10,000 was included in the cash proceeds received from the sale of 30% of the Company's interest in MMB to the Consortium in 2008. This deposit was to be refundable to the Consortium should a decision be made not to produce manganese from the Boleo Project by the economic completion date. Alternatively, additional consideration was to be paid to the Company by the Consortium of approximately \$13,000 upon a positive decision related to the production of manganese being made by the time of economic completion of the Boleo Project.

Baja Mining Corp.

Notes to the Condensed Interim Consolidated Financial Statements – Unaudited

June 30, 2015

(expressed in thousands of US dollars, unless stated otherwise)

4 SUBORDINATED DEBT (continued)

During the second quarter of 2014, the Company agreed with KORES that once the Boleo Project has started paying cash dividends and that the MMB board has decided in good faith not to proceed with the development of manganese at the Boleo Project, Baja will pay the Consortium the \$10,000 out of cash flows paid to Baja from the Boleo Project.

If the MMB board decides in good faith to proceed with the development of manganese at the Boleo Project, the Consortium will pay Baja the \$13,000 out of cash flows paid to the Consortium from the Boleo Project.

As the manganese production decision is to be made by the board of directors of MMB and the Company no longer controls MMB, the Company cannot accurately predict the outcome or timing of the manganese production decision. No decision on manganese production has been made by MMB as of June 30, 2015.

Should Baja be required to pay the \$10,000 refundable deposit liability, it is management's judgement as of June 30, 2015, that no repayment would be required within the next twelve months. Accordingly, the \$10,000 refundable deposit liability is recorded as a long-term liability as of June 30, 2015.

	11,162,500	2.12	0.66	9,493,750	0.77

The Company's stock option plan (the "Plan") allows the Company to grant stock options up to a maximum of 10% of the number of issued shares of the Company. Options granted under the Plan will vest with the right to exercise one-quarter of the options upon conclusion of every six months subsequent to the grant date, unless otherwise specified by the board of directors at the time the particular options are granted.

The total stock-based compensation recorded during the three and six months ended June 30, 2015, was \$7 (2014 – \$Nil), and \$20 (2014 – \$Nil), respectively. This has been recognized, based upon the work carried out by the employee or consultant, to general and administration expense with the offsetting amount recorded to contributed surplus.

Cinto Colorado

On April 30, 2013, the Company entered into an option agreement (the “Agreement”) whereby it can earn up to an 80% interest in Cinto Colorado S. de R.L. de C.V. (“Cinto Colorado”), a private Mexican company. Cinto Colorado’s main asset is a surface lease, which entitles Cinto Colorado to process and/or sell tailings and slag now stored on the lands subject to the lease (the “Lands”). The Lands are situated within Santa Rosalia, Baja California Sur, Mexico, and are adjacent to the existing Boleo Project of MMB.

Under the terms of the Agreement, as amended effective November 24, 2014, for Baja to exercise its right to acquire the interest in Cinto Colorado it is required to:

- Pay \$72 to Cinto Colorado (already paid);
- Deliver a NI 43-101 compliant preliminary feasibility study (“PFS”) at the earlier of (i) six months following the date on which the Company receives a legal opinion from its legal counsel indicating Cinto is the holder of clear legal title to both the tailings and slags on the Lands, or (ii) December 31, 2015;
- Deliver a NI 43-101 compliant definitive feasibility study (“DFS”) on or before eight months following the completion of the PFS; and if needed, complete a financing on or before six months following the delivery of the DFS, equal to the minimum amount estimated in the DFS needed to implement the DFS’ recommendations.

9 SEGMENTED INFORMATION

The Company currently operates in one business segment, being the acquisition, exploration, development and operation of resource properties.

10 GUARANTEES, COMMITMENTS AND CONTINGENCIES

- a) In 2012, the Company entered into a lease assignment for offices no longer being used by the Company. In order to induce the landlord to approve the assignment, the Company provided an indemnity agreement to the landlord. The Company will remain liable during the balance of the lease term in the event the assignee does not fulfill its obligations to the landlord. The lease expires September 30, 2020.

At June 30, 2015, total future aggregate minimum lease payments over the remaining lease term by the assignee to the landlord covered by this indemnity agreement are \$2,819.

No amount has been accrued for this indemnity as of June 30, 2015, as management has assessed that it is not probable that the Company will be required to cover any amounts under the indemnity.

- b) Future commitments under non-cancellable operating leases for offices are as follows:

(expressed in thousands of US dollars, unless stated otherwise)

10 GUARANTEES, COMMITMENTS AND CONTINGENCIES (continued)

- c) Following the announcement of the forecasted cost overruns and the resulting funding shortfall, a shareholder of the Company commenced a class action lawsuit under the *Class Proceedings Act* (Ontario) (the “CPA”) against the Company and certain of its present and former directors and officers.

On April 28, 2014, the court certified the action as a class proceeding under the CPA, and dismissed all claims against certain individual defendants. As against Baja and the remaining individual defendants, the court granted leave to the plaintiff to proceed only with respect to statutory claims under s. 138.3 of the *Securities Act* (Ontario) (the “OSA”) and dismissed all other claims.

The plaintiff now seeks as against Baja and the remaining individual defendants:

- a declaration that the defendants made misrepresentations with respect to the costs of the Boleo project contrary to the OSA during a class period extending from November 1, 2010, to April 23, 2012, and a declaration that the defendants are liable for breaching s. 138.3 of the OSA;
- a declaration that Baja is liable for the acts and/or omissions of its directors, officers, servants, employees, and/or agents pursuant to Part XXIII.1 of the OSA;
- statutory damages pursuant to s. 138.3 of the OSA; and
- interest, legal costs, and costs for notice to class members and for administration of a plan of distribution.

The Company intends to defend itself, and has engaged legal counsel to advise and assist the Company in its defence against this lawsuit. No amounts have been recorded for any potential liability arising from this matter as the Company cannot reasonably predict the outcome.
