1 NATURE OF OPERATIONS AND GOING CONCERN

Camrova Resources Inc. (the “Company” or “Camrova”) was incorporated on July 15, 1985, under the Company Act of British Columbia. The Company is a reporting issuer in Canada and trades on the TSX Venture Exchange, the Frankfurt Stock Exchange and the OTC market. The Company is domiciled in Canada and its registered office is 600-890 West Pender Street, Vancouver, British Columbia, V6C 1J9.

On October 17, 2016, the Company changed its name to Camrova Resources Inc. from Baja Mining Corp., and consolidated the Company’s common shares on a twenty-old-shares-for-one-new basis. These consolidated financial statements reflect the share consolidation and all references to number of common shares, share options, and per common share amounts have been retroactively restated to present post-consolidation amounts.

These financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of operations. The Company’s ability to continue as a going concern is dependent on its ability to generate future profitable operations and/or obtain the necessary financing to meet its obligations and repay its liabilities from normal operations when they become due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least but not limited to twelve months from the end of the reporting period.

As at June 30, 2018, the Company had cash and cash equivalents of \$322,842, working capital of \$203,070, and an accumulated deficit of \$442,324,991. The Company had cash outflows from operations of \$134,518 for the six-month period ended June 30, 2018. The Company expects to incur further losses in the development of its business. Based on the Company’s cash flow forecasts, it will require additional financing within the next 12 months in order to meet its ongoing corporate overhead, and to pursue discretionary exploration and evaluation programs. Management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or will be able to raise additional future funding when required. These factors cast significant doubt on the Company’s ability to continue as a going concern.

These condensed interim financial statements do not include the adjustments to the amounts and classification of assets and liabilities that would be necessary should the Company be unable to continue as a going concern. These adjustments may be material.

2 BASIS OF PREPARATION AND NEW ACCOUNTING POLICIES

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”) 34 *Interim Financial Reporting*.

These condensed interim financial statements follow the same accounting policies and methods of application as the Company’s most recent annual financial statement, and should be read in conjunction with the Company’s annual financial statements for the year ended December 31, 2017, which were prepared in accordance with IFRS as issued by the IASB.
